Data Standard Teacher of Record

Rev. 6/8/2020

Overview

Description

Schools must assign the teacher of record and contributing professionals for each instructional course in Infinite Campus.

A Teacher of Record in a Kentucky public school is a certified teacher who has been assigned the lead responsibility for the student's learning in a subject/course aligned to Kentucky Academic Standards or Career and Technical Skill Standards Documents.

A Contributing Professional in a Kentucky public school is an individual who has been assigned the responsibility to provide additional services that support and increase a student's learning.

Ultimately, strong teacher student data links inform instruction and support the continuous improvement of teaching and learning.

Teacher, No Grade Book					

Add staff based on their role:

Primary Teacher– Certified teacher who has been assigned the lead responsibility for the student’s learning in a subject/course. This person is the Teacher of Record. Schools should assign a primary teacher to every section.

Teacher – An individual who has been assigned the responsibility to provide additional services that support and increase a student’s learning and has access to the section’s grade book and attendance roster.

Section Staff – An individual who has been assigned the responsibility to provide additional services that support and increase a student’s learning, but does not have access to section’s grade book and attendance roster.

Data Standard Teacher of Record

Rev. 6/8/2020

Assignment Start and End date fields should remain blank unless staff members start working in the section after the first day of the first scheduled term, or stop working in the section before the last day of the last scheduled term.

Access to this section is controlled by Access Start and End dates. To end a user's access to this section, enter an Access End Date.

The screenshot shows a web form titled "Staff History Detail". It includes a "Primary Teacher" section with a "Name" field (containing "Teacher, Primary") and a "District Assignment" dropdown menu. Below this is an "Assignment" section with "Start Date" and "End Date" date pickers. The "Access to Section Dates" section has two radio button options: "Unrestricted" (selected) and "Date Range", each with its own "Start Date" and "End Date" date pickers. At the bottom is a "Comments" text area. A status bar at the bottom of the form reads "- Modified by: Administrator, System 04/11/2018 10:23".

Assignment – Dates the instructor began and ended the teaching assignment on the course section. In most situations, these fields will be left blank. They are only populated if the primary teacher, teacher or section staff are assigned to the section after the first day of the first schedule term, or if the primary teacher, teacher or section staff are no longer assigned to the section before the end of the last scheduled term.

Access to Section Dates – Entered dates determine when a primary teacher or teacher can access course information in Campus Instruction (Grade Book, Planner, etc.). Unrestricted - Allows access to Campus Instruction tools without restriction for the duration of the calendar year. Date Range - Access to Campus Instruction tools is limited to the time between the entered dates.

Teacher Display Name on Section –

Continue using the current Teacher Display Name from the section tab. This selection will continue to display the primary teacher's name as it is currently entered.

Use a new Teacher Display Name on the Section tab. Use this option when changing the primary teacher. When this option is selected, the person making the change can enter in the display name. This is helpful in elementary schools where the primary teacher name is displayed along with breakout section teachers, like music teacher or the art teacher.
