Subject: English Learner Data Collection Updates .2211 Release

District Title III English Learner Coordinators:

Infinite Campus .2211 release includes some updates for English Learners data collection and reporting.

A new data element named ***Program Exit State*** has been added to the English Learners (EL) Program tab. This field allows users to track which state the student was residing in when they exited the EL program. The field will default to Kentucky when a Program Exit Date is entered but should be updated if the student exited in another state. This field was also added to the English Learners (EL) Import in the Student Records Transfer tool.

The QA English Learners report has added two new report options to assist with data quality issues between ACCESS data and English Learners status. Details of the report types are outlined below:

- ***Reach ACCESS Attainment Prior Error*** report will provide a list of students who are indicated as English Learner but who have reached attainment on a prior ACCESS assessment. Student Program Status is EL and/or an active EL Service and/or active EL Accommodation. Highlighted cells indicate the data quality issue that needs to be addressed in the student's EL record.
- ***No Prior ACCESS Attainment Error*** report will provide a list of students who are not indicated as English Learner but have not previously reached attainment on a prior ACCESS assessment. Highlighted cells indicate the data quality issue that needs to be addressed in the student's EL record.

Reference the QA English Learners report [Quick Reference Card](#) for additional details. The QA English Learner report is available via KY State Reporting | KDE Reports.

The [English Learners Data Standards](#) have been updated with these new enhancements. Please distribute the updated standards to the appropriate staff in your schools and district responsible for EL data entry and reporting. Thank you!
