Subject: KSIS Notification: Release of Campus.2435 September 18
Importance: High

#### KSIS Contact,

Please be advised that KDE has confirmed the release of **Campus.2435** to start <u>Wednesday, September 18, at 7:00 p.m.</u>, <u>(Central)/ 8:00 p.m. (Eastern)</u>. Please note, we originally planned to implement **Campus.2435** on September 11. However, we postponed the release to ensure the <u>Dual Credit Scholarship Report</u> can be submitted to KHEAA by the **September 15** deadline, before the Roster Batch Edit tool is replaced by the Section Student Detail tool. Campus will convert the data from Roster Batch Edit to Section Student Detail but is not part of this release.

Infinite Campus will be temporarily unavailable during the update process. Please contact Lisa Keeter or DeDe Conner if you have any questions or concerns about the update schedule.

For state specific items, see the <u>.2435 Kentucky release notes</u>. Review the full manifest of changes in the <u>Campus.2235</u> release (Campus ID required).

Please share this information with individuals in your district or office as appropriate.

Thank you!

# Infinite Campus Release Highlights – Campus.2435

Kentucky Specific	
ltem	Description
Career Readiness	Multiple updates have been made to Error requirements, and the extract editor's default format has been changed to HTML for the Validation Report.
Kentucky Special Ed	Kentucky users can now have an Amendment Start and End Dates on the same day as the
Amend Dates Update	plan's original Start and End Dates to comply with KDE standards. This applies to the Individual Education Plan and Private School Plans for Kentucky.
Safe Schools Report	An issue with duplicates when running the Safe Schools report has been resolved. Also, issues with missing data related to SSP3 (out-of-school suspension) when there are Restraint/Seclusion responses present and Events V19 (Hazing 1st degree) and V20 (Hazing 2nd degree) have been resolved.
Section Information	The <u>Section Student Detail</u> tool has been added and includes Dual Credit, No Credit, and Repeat fields. This replaces the Roster Batch Edit tool for these data elements. Tool rights will need to be assigned to the appropriate user groups.

#### **Core Product**

Item	Description
Academic Planning	Courses using the Parent/Child Planning rule were not reflected on the student's <u>Academic</u> Planning Progress list of courses. This has been corrected.
Campus Student &	Previously, if a district modified their district-defined help in the Campus Parent or Campus
Parent	Student app to include their phone number, Google searches prioritized that phone number over the number of Infinite Campus in search results, causing an increase in calls to the district. This has been corrected.
English Learner	An issue was identified in which some students with multiple active EL records had a historical record without an end date. A query has been implemented to isolate these records and change their status to Exited LEP.

Item	Description
Health	The list of CDC vaccine codes was updated for the 24-25 school year. See the Vaccine
	Mappings article for additional information
Infrastructure	An issue was causing users to receive an error token when attempting to upload a file via an
	import tool (such as the Eligibility Import Wizard, User Account Batch Import Tool, etc). This
	issue was corrected.
One Roster	Previously, when a course had two instances of the same Grading Task aligned, one of
	which was marked as Post Only, the Uncategorized Assignments tool treated both instances
	a Post Only and did not list the other Grading Task. This has been corrected.
<b>Records Transfer</b>	An Evaluation Error was being generated when records transfers were being released. This
	has been corrected.
Security	Users could not log into Infinite Campus if their system had two or more
	active SSO configurations. This issue was corrected.
	Within Classic Campus, users with proper Read tool rights to Student Information were
	prevented from searching for students. This issue was corrected.

## **Core Product Enhancements**

Item	Description
Census Rules Data	Added the ability to run the Census Rules Data Validations Group on a selected school or year.
Validations Group	
Course Planner -	The Course Planner Filter for Batch Edit Course Information has been updated to include
Additional Course Filter	additional parameters. Users can enter a value for Terms, Schedules, Periods, etc., to return
Options	courses meeting those values. They can also select a "Where" value and choose an operator
	(=, >, etc.) like what is available in Filter Designer.
	Sections to Build can now be set to a specific value (Text Fill Value) OR to the value from last
	year's sections, sections needed, or sections placed.
Custom Forms State	State Edition users can now create an Interactive or Blank Custom Form and publish it for all
Edition Publish to	districts. When districts attach the form to a student, enter data, and lock it, the form
<b>Districts Functionality</b>	automatically syncs back to the state. This applies to all newly created Custom Forms but not
Added	existing forms. See the Custom Form Setup article for additional information.
Schedule Wizard and	Over the last few years, the tools available for building courses, loading requests, planning
<b>Related Scheduling Tools</b>	for staff and necessary courses, and managing rosters have been redesigned with new
Removed	technology. Those tools are:
	Scheduling Board, Course Planner, Staff Planner, and Requests & Rosters
	The following tools have been removed from Campus:
	Schedule Wizard, Scheduling Build Constraints Wizard, Course Build Constraints, Section
	Roster Batch Edit, Request Wizard, Roster Copy, and Section Roster Setup.
Signing In to Google	The process for authenticating a Google account has been updated to accommodate recent
Drive	changes by Google. Integrating Google Drive files functions the same way, but the sign-in
	process has been simplified. Teachers and students are still prompted to log in to Google
	Drive when interacting with a file. Additionally, a "Change" button has been added to the
	teacher's Preferences and the student's Google sign-in screen to allow users to manage which
	account they're signed into.
Special Ed Documents	The Amendment Start Date is now displayed in the Document Detail of amended plans. This
Amendment Start Date	information can be queried in Ad hoc (Query Wizard > Student > Learner Planning >
Update	Learning Plans > learningPlan.amendStartDate). See the Amend Special Ed Documents
Current Citta Francillura est	article for additional information.
Cross-Site Enrollment -	All Cross-Site Enrollment data related to Courses, Course Sections, Rosters, and Enrollments
Course, Roster and	now syncs with other district data. This daily synching process ensures that interdistrict
Enrollment Data Syncing	Cross-Site Enrollment data is up-to-date.

Item	Description
Cross-Site Enrollment -	Home School users can now print the Calendar Report and the Period Schedules Report for
Home School View, Print	the Serving School. These reports can be printed from the Cross-Site Enrollment setup tool.
Serving School Day	
<b>Rotation and Period</b>	
Schedule	
Cross-Site Enrollment -	For students enrolled in Cross-Site Courses, an indication that the Serving School does not
Non-Instructional Events	meet on a certain day now displays on the student's Schedule when viewing from the Home
Displayed for Home	School.
School	This can be viewed when looking at the student's schedule in the Day, Week, and Agenda
	views, available when using the Calendar option to view the student's schedule. That course
	for the day is highlighted, and when selected to view details in the side panel, additional
	text displays indicating the course doesn't meet for that day/period.
Cross-Site Enrollment -	A new tool called School Connections has been added to the Cross-Site Enrollment toolset
School Connections	for use with Intradistrict Cross-Site Enrollment Participation. This tool determines which
	schools can share/map courses with other schools. Only those schools marked as eligible for
	service are displayed in the Cross-Site Enrollment Setup tool.
