Subject: KSIS Notification: Release of Campus.2451 Scheduled for January 8

KSIS Contact,

Please be advised that KDE has confirmed the release of **Campus.2451** to start **Wednesday, January 8, at 7:00 p.m., (Central)/ 8:00 p.m. (Eastern)**. Infinite Campus will be temporarily unavailable during the update process. Please contact Lisa Keeter or Linda Burton if you have any questions or concerns about the update schedule.

See the [Kentucky release notes](#) for state-specific items and [Campus.2451](#) for the full manifest of changes.

Please share this information with individuals in your district or office as appropriate.

Thank you!

Infinite Campus Release Highlights – Campus.2451

Kentucky Specific

Item	Description
Gifted and Talented	An issue was fixed where the Kentucky Custom Gifted Form Batch Print tool was not generating.
Enrollment	The values available in the Dropout/KTS Primary School dropdown on the Enrollments tool were updated to include 565021: Union County Learning Academy.
Preschool	A tool rights issue was fixed when generating an Ad hoc report that included Preschool program fields
ILPA	The list of schools available in the ILPA Documents tool was updated.

Core Product – Bub Fixes

Item	Description
Records Transfer	When users released records without an existing transcript flagged as default for records requests, they received a warning that directed them to the incorrect path. The modal warning has been updated to direct the user to the correct path in the New Look and reads as follows: "If you wish to specify a default transcript for records transfers, please click 'cancel' and do so in the Report Setup tool."

Core Product Enhancements

Item	Description
Campus Learning Discussions	The following updates have been made to Discussions: <ul style="list-style-type: none">• Added an option for students to attach files to a discussion post. Teachers can enable this option in the Discussion settings.• Changed color coding logic to outline a post instead of coloring the background. For example, when scoring discussions, the selected post is outlined in blue.• Logic for deleting posts has been updated. Added an option to delete all posts in a thread and to delete all of a user's own posts. If all posts in a thread are deleted, the thread no longer displays in the discussion.• Added a 'New' label for new posts and replies.• Posts are now labeled based on the role of the poster: Admin, Teacher, or Student.• Teacher posts are now displayed in the Campus Parent view even if the parent's student hasn't replied.

Item	Description
	Removed the Print button - users can still print Discussions using their browser's print function
Cross-Site Enrollment	<p>Designate Which Districts Can Participate with Other Districts</p> <p>Administrators can now select which districts their district can accept Cross-Site offerings from when Cross-Site Enrollment tooling is turned on.</p> <p>For interdistrict Cross-Site Enrollment districts, the School Connections tool now includes a toggle for Interdistrict and Intradistrict. When set to Interdistrict, districts can choose (marked to Accept Offerings) to interact with other districts. If the district is not set to Accept Offerings, courses from that district will not display for mapping in the Home district's Cross-Site Enrollment Setup tool.</p> <p>When Accept Offerings is turned off after courses have been mapped, existing mappings and rosters will remain unless manually removed.</p> <p>Attendance Update for Home Schools</p> <p>When the Serving school has provided an Attendance Status or reconciled the attendance record, regardless of whether the Home school has sent any initial attendance, the Home School is no longer able to update that attendance record. This update coincides with other Cross-Site Enrollment Attendance updates (SIS-183905) and enforces the role of the Serving School always being the School of Record.</p> <p>The following areas have been updated:</p> <ul style="list-style-type: none"> • Student Attendance Tool - The Excuse field only includes excuses that have the same status as the locked attendance record. Radio buttons to change the status have been disabled. • Attendance Entry Wizard - An attempt to change a Status on the locked attendance record alerts the user that the record cannot be changed. Radio buttons to change the status on the locked attendance record are disabled. • Section Attendance - Radio buttons to change the status on the Attendance side panel are disabled. • Teaching Center - Radio buttons to change the status using Take Attendance or the Seating Chart are disabled. <p>Attendance Workflow Updates</p> <p>Previously, attendance recorded for Cross-Site Enrollment students allowed for processing at both the Home School and the Serving School. This has been updated to have the *Serving School is the school of record.* This applies to both Interdistrict and Intradistrict participation.</p> <ul style="list-style-type: none"> • Any initial status coming from the Home School can be accounted for in the Serving School unless the Serving School has already supplied a status. • Attendance status changes cannot be changed at the Home School. • Additional changes from the Home School where the Serving School has already reconciled the status or added their own status is not accounted for at the Serving School.
App Cache Reload Tool Now Available	<p>System administrators and users with a Student Information System product security role can now access the App Cache Reload Tool. This tool is useful for reloading the cache app after events such as:</p> <ul style="list-style-type: none"> • A change to your district Campus Service Provider Entity ID • Changes made to Portal Preference through the database. • Changes made to dictionary items through the database. • Troubleshooting and resolving one-off issues.

Item	Description
	NOTE: Reloading the app cache may lead to high resource usage and temporary login outages. PLEASE USE THIS TOOL ONLY WHEN NECESSARY. If you need to use this tool often, contact Campus Support.
Data Extract SFTP Key Exchange Manager	<p>The following updates were made to the Data Extract Utility SFTP Key Exchange Manager to lessen confusion and improve usability:</p> <ul style="list-style-type: none"> The header has been updated to include the proper workflow for using this tool, including a link to detailed instructions available in the Campus Community Knowledge Base. The SFTP Key Exchange Configuration section is now identified as required and buttons appear in workflow order. <p>The SFTP Server Public Key Upload (.pub file) section is now labeled as optional and includes language about how this functionality works.</p>
Custom Forms eSignature Terms and Conditions Update	<p>Parents/Guardians and/or students who receive a Custom Form on the Campus Parent or Student Portals that require an eSignature now must accept or decline a <i>Terms and Conditions for Electronic Use</i> before signing or declining the Custom Form. See the Custom Forms on Portal Process article for additional information.</p>
