Introduction

Purpose: Describe the course setup, grading and attendance instructions for high school students dual enrolled in the Craft Academy or Gatton Academy residential programs.

Introduction

Students enrolled in virtual or performance-based courses in Kentucky must have the proper course setup, grading and attendance procedures in order to receive credit on the SAAR report, the primary method by which school funding is calculated. One of the most common performance-based instructional classes are for students enrolled in the dual-credit residential high schools for academically exceptional Kentucky students. These schools are The Gatton Academy of Mathematics and Science in Kentucky operated by Western Kentucky University and The Craft Academy for Excellence in Science and Mathematics.

This document will provide an explanation of how to create Craft Academy and/or Gatton Academy course(s) in your district's school, setup the correct grading tasks, schedule a student, post grades for the report card and transcript and then verify the attendance on the SAAR report. Please note that districts can customize their setup for the academies. For example, individual courses can be created for each college course in which the student is enrolled. The instructions in this document are intended to provide basic setup instructions.

NOTE: Attendance will not appear on the ADA/ADM and the Register attendance reports but only on record V of the SAAR once the passing grade on the final term has been posted.

Enrollments

Craft and Gatton Academy students should have a primary enrollment at their home high school. They will not physically attend the home high school and will not have attendance data. These students are often incorrectly marked as No Show. The Craft Academy uses Infinite Campus but Gatton Academy does not. Craft will create secondary enrollments and initiate student records transfer requests from the home high school. Do not end date these students enrollments when you received the records request.

Service Type: P: Primary

State Exclude: This should be unchecked.

KEES Override: This should be determined the same as all other students.

Score Groups & Rubrics

Path: Grading & Standards > Score Groups & Rubrics

Any score in the school/district grading scale that has the passing score checkbox marked can be used to indicate the classes were passed. A separate grading scale can be created for pass/fail but is not required.

Del Name	Score	Credit Coeff	Min Percent	GPA Value	Unweighted GPA Value	Bonus Points	Sequence	Passing Score
✗ Fail	F	0	0			0	0	<input type="checkbox"/>
✗ Pass	P	1	0			0	0	<input checked="" type="checkbox"/>

Course Setup

Path: Scheduling > Add Course

A course named after the academy should be created. If you have students in both academies, you may setup a course for each or one course with sections for each academy. If your district uses a course catalog, define the course master(s) then add the course(s). The course should be setup as a performance-based class. The setup should be as shown below:

Posting Final Grade

A score must be posted for the year-end grade (e.g., Final Grade) for a performance-based course.

1. Locate the Gatton Academy course under the Search tab
2. Select the course section

3. Select the Grading by Task tab
4. Select the Final Grade grading task
5. For each student, choose Pass or Fail based on their performance in the Academy.
Note: Individual course grades from the Academy will be manually entered on the transcript or imported from Craft Academy.

The 'Fill Grades' table is visible, showing a task 'T3 - Final Grade' with columns for Percent, Score, and Comments. Below the table, there are checkboxes for 'Percent', 'Score', and 'Comments', and buttons for 'Fill Empty' and 'Fill All'. A student entry for '12 Gatton, Student #1952371530' is shown with a 'PASS FAIL' dropdown menu.

Transcripting Course Grades and Credits

Individual entries for each course must be manually posted to the transcript for Gatton Academy students. For Craft Academy students, you may use the National Records Exchange to import the transcript entries directly from Craft Academy. After importing, you must manually set the Difficulty Level to DC: Dual Credit for each entry and verify State Course code.

1. From the Craft or Gatton course section, select the Roster tab or find the student under the Search tab
