

2021-2022 – SRC Communication #09

Distribute: August 3, 2022 – District Safe Schools Administrators

The deadline for review and approval of the 2021-22 School Safety data in the secure [Kentucky School Report Card Data Approval Tool](#) will be extended to **August 12th**. Details and resources to complete this task can be found in the [original email sent on July 19th](#).

The Safe Schools data in the BrightBytes School Report Card approval tool has been refreshed from Infinite Campus based on any updates made in IC to student safety data by end of day **July 29th**. Districts or schools that made updates in IC last week can now review the updated data in the tool. If this update completes your school or district data, please remove flags and approve the safety domain.

A few districts have reached out to me this week indicating changes needed in IC to safety data, this data will not be reflective in the BrightBytes tool until early next week. A notification will be sent when those updates can be viewed in the School Report Card approval tool.

For districts and schools that have approved data in the *Safety* domain of the School Report Card Data Approval Tool, no further action is needed.

Please let me know if you have questions or concerns, thank you!
