

## 2021-2022 – SRC Communication #11

Distribute: August 10, 2022 – District Safe Schools Administrators

### SRC – School Safety Reminder

District Safe Schools Administrators,

The deadline for review and approval of the 2021-22 School Safety data in the secure [Kentucky School Report Card Data Approval Tool](#) was extended to **August 12<sup>th</sup>**. We have many districts who are dealing with the devastation of flooding; please reach out to me if additional time is needed or if there is anything I can do to assist. I have reviewed the safety data for the districts affected and do not see any data discrepancies.

Details and resources to complete review and approve the safety domain can be found below in the original email sent on July 19<sup>th</sup>.

The Safe Schools data in the BrightBytes School Report Card approval tool has been refreshed from Infinite Campus based on any updates made in IC to student safety data by end of day **August 5<sup>th</sup>**. Districts or schools that made updates in IC last week can now review the updated data in the tool. If this update completes your school or district data, please remove flags, and approve the safety domain.

For districts and schools that have approved data in the *Safety* domain of the School Report Card Data Approval Tool, no further action is needed.

Please let me know if you have questions or concerns, thank you!
