

Career and Technical Education (CTE) Preview Release - Delayed

Release of career and technical education (CTE) data in the [School Report Card \(SRC\) Suite Collection and Approval Portal](#) has been delayed. School Report Card contacts and District Assessment Coordinators will be notified as data is available to review. The data being released is consistent with what has been reported in prior years, but the CTE data is being consolidated into its own domain. Schools and districts are asked to review this data as it becomes available in the Preview tool, raise flags if any issues are found and approve data confirming the review is completed.

Final accountability data is not yet available for the Career Readiness subdomain. If your district is anticipating a change to the Career Readiness numbers, hold off on approving, you should expect to see final data updates before public release.

Recorded training and other resources are available on the [SRC Resource webpage](#).

NOTE: Current system issues have delayed the Kentucky Department of Education’s (KDE’s) ability to respond to raised flags and may have impacted previously approved domains. KDE is working with AnLar to resolve these issues.

Schools and districts should continue to flag data issues within the Preview tool and check lowered flags for KDE responses in the Approval/Review Flags Report tool. If issues persist after a flag is lowered, please contact the KDE point of contact that responded to the flag.

CONTACTS

- For questions related to AnLar's access and functionality, contact the [AnLar Helpdesk email](#) or call (502) 509-0041 between 8 a.m. and 6 p.m. ET.
- Email [KDE CTE Contacts](#) for questions regarding CTE data
- Email [KDE Data Services](#) for general questions.
- Contact [applicable KDE data point of contact](#) for questions on data in Preview tool
- Collection contacts include:
 - [Windy Spalding](#) for precautionary measures and parental involvement.
 - [Caryn Davidson](#) for School Profile Report.
 - [Ben Maynard](#) for access to technology.
 - [Tessa Harris](#) for ineffective teacher.
- Email [KDE DAC Information](#) for assessment and accountability questions
