School Report Card (SRC) Reminders

Schools and districts will be able to see prior year data (2021-2022 and 2022-2023) in open domains of the [School Report Card (SRC) Suite Collection and Approval Portal](#) beginning this week. Prior year data should be consistent; however, there will be some variances due to the way small cell counts are suppressed. The [current School Report Card Suite dashboard tool](#) will sunset Dec. 15 so there is limited time available to compare data previously reported in the dashboard view to the new School Report Card dashboard. Current and prior year Academic Performance and Accountability data will be available after KDE has completed its review. This data is final and does not require approval.

AnLar continues to work towards completion of the SRC for 2024, release dates have been delayed due to issues. District release and public release dates have been impacted. KDE has reported issues and addressed flags to the extent possible. Schools and districts can also report issues they find to help escalate issues to the [AnLar help desk](#).

Recorded training and other resources are available on the [SRC Resource webpage](#).
