

GMAP Declaration of Participation Report Instructions and Guidance

Background

The Declaration of Participation Report must be completed by your district in accordance with the Every Student Succeeds Act and the Individuals with Disabilities Education Act. This report is used to identify the number of students enrolled in private non-profit and home schools within each district's boundaries. Federal programs participating in the Declaration of Participation are Title II, Part A- Supporting Effective Instruction; Title III - English Learners (EL) and Immigrant; Title IV, Part A-Student Support and Academic Enrichment Grants; and IDEA-B - Individuals with Disabilities Education Act. Please note: The Title III EL data collection is used to identify both the number of English Learner students and the number of Immigrant students enrolled in area private non-profit and home schools.

General Instructions for Identifying Private and Home School Membership

1. Reference the [Declaration of Participation Notification](#) for detailed instructions and guidance. In addition, the data entered must be from the Declaration of Participation Forms collected from the private and home schools within the district's geographic boundaries. The forms can be sent to the private schools via email if contact email addresses are available. If the district chooses to use this method of distribution, a *Read Receipt* must be indicated on the email message and the receipt should be retained as evidence that the email was delivered and opened.
2. List **all** Private Non-Profit and Home Schools physically located in the public district's geographic boundaries regardless of if the school's intent to participate in title programs.
3. Do **not** include private or home schools located outside of the school district's geographic boundaries in which the district is required to contact for Title I services for students residing in the district.
