SUMMARY OF ACADEMIC ACHIEVEMENT AND FUNCTIONAL PERFORMANCE

The Summary of Performance must be developed during the final year of a student’s high school education. The timing of completion of the Summary of Performance may vary depending on the student’s postsecondary goals. If a student is transitioning to higher education, the Summary of Performance, with additional documentation, may be necessary as the student applies to a college or university. Likewise, this information may be necessary as a student applies for services from state agencies such as vocational rehabilitation. It is most appropriate to wait until the spring of a student’s final year to provide the student with the completed documentation. The Summary of Performance may be provided to the student during an exit/transition review which can be conducted in conjunction with the transition session of the Individual Learning Plan process or in conjunction with the spring Admissions and Release Committee annual review meeting.
