Infinite Campus: Transient Population Report

Custom Report: Transient Population – The purpose of this report is to identify transient students currently enrolled in a district and/or school. Students are identified as transient if they have been enrolled in 3 or more schools in the current school year; 5 or more schools in the last 2 school years; or 10 or more schools in the last 5 school years.

The Detail report lists individual students along with enrollment counts and student groups. The Aggregate report shows total transient counts for the district or school and student groups.

Data is pulled from the Reporting Warehouse therefore enrollment information will be as of the end of the previous week.

Selection Criteria: Use the Campus toolbar to select the school you would like to use for the report. Select "All Schools" to run a district wide report. Choose Detail or Aggregate Report.

KDE Contact: Jessica Carlton, Office of Finance Operations

Pathway: KY State Reporting | KDE Reports | Transient Population

NOTE: Users must be granted access by local KSIS administrator before they will see this report.

Report Sample: The reports will generate in Excel format.

Suggested report uses:

Detail Report
- Use to identify specific students within a district or school who are identified as transient.
- Filter on a school to find students within a school
- Filter on a grade to find students within a particular grade
- Filter on Gender, Race or other student group to identify common trends within your district/school population

Aggregate Report
- Use to identify the total number of transient students in a district or school.
- Use to identify population trends
