Kentucky Community School Initiative (KCSI) Contact List

Purpose: This document includes the names of those **districts** (Column 1) who are recipients of the Prichard Committee’s full-service community schools grant awarded by the United States Department of Education.

To support each district with its grant initiatives, the Prichard Committee has assigned a **state coach** (found in Column III below) who is responsible for the initial training to district personnel, identifying future training needs, providing support and guidance with implementation of the Full-Service Community Schools initiative in the selected districts.

Likewise, each district must employ a **district director** (found in Column IV below) who is responsible for coordinating services, managing partnerships, providing direct support to students, and planning for full-service community schools sustainability. Contact information for both state coaches and district directors can be found below in the chart.

For **general questions** regarding full-service community schools and how the Kentucky Department of Education (KDE) supports this work, please contact [Marsha VanHook](#).

	Schools	Prichard Committee State Coach	District Director
Bracken County	Bracken County Middle Taylor Elementary	Keric Seals	Samatha Wilson
